Alexander & James

GREAT BRITISH SOFA DESIGN

The **Rubberwood tree** that made this sofa frame has **lived a long and productive life**, (26-30 years) supplying latex for the world's rubber based, 'boingy' products.

Alexander & James only use this **durable timber** when the tree tires of it's latex production.

That's why our **Rubberwood** plantations are **planet loving** and **happy places to be!**
